

Helplessly

Like a fool
I reach out for your love but you don't notice me
All alone
Every word you say I stumble helplessly

I Can't stop this feeling
Can't hide the love I'm in
I close my eyes and hold you in my dreams
You're always there it seems
Waiting for me

Take my hand
And you can take the pain that has been taking me
Breaking me
So alone
Every word I say I stumble helplessly
