

## Justice

Justice wait for the right line  
Find the moment in your melody  
When it feels bad  
Everything will be alright  
Maybe tomorrow  
Maybe tonight

Justice stay for the good rhyme (Justice please stay)  
Here the movement in your harmony  
If you feel bad (Justice it's alright)  
Everything will be alright  
just wait 'till the morning  
Only tonight

Turn the grey to blue  
Justice be true  
Something that waits inside will guide you  
Make the bad ones good  
Only you could  
Leaving your yesterdays behind you  
Justice you do all that you do

Justice turning your grey skies into blue  
(The world is waiting for you, the greys are turning to blue)  
(We're waiting for you Justice, It's only blue now Justice)
