

Running Free

Kicking a can on the sidewalk as the rain falls down
He's getting cold so they talk as they fool around
A couple of kids not love as they've all said in fun
She puts her hand in his and through the rain they run
'cause they're always to be running free

Laughing a while on the corner by the movie show
He sings a song they just heard upon the radio
A couple of kids not love as they've all said in fun
But she puts her hand in his and through the rain they run
'cause they're always to be running free
